

## Case Study: Practice Start-Up

---

**Client:** Cardiology Clinic

**Situation:** Client is starting up a practice while still employed

**Problem:** Time is limited  
Lack of knowledge in starting a practice  
Overwhelmed with the tasks at hand in setting up a practice

**Solution:** myeMED Start-Up Services

**Outcome:** Using myeMED's Ignition Team, myeMED assisted client in obtaining financing, provided project management and scheduling, worked on insurance credentialing and contracting, set up liability insurance, lined up service vendors, operation analysis and implementation, advertising, network design and hardware procurement, staffing and compliance training. Client is able to work while starting up his own private practice.

**Summary:** myeMed's Services made it possible for the client to continue to work while having expert advice and Ignition Team working on setting up the practice timely and effectively using best practices for a successful practice.

**myeMED Management, LLC**
