I am writing this letter in support and praise of Maybelle and her staff at Mye Med Management. It is long overdue. As a new physician in the area, and new to the prospect of starting a medical practice, I found the guidance and advice of Maybelle to be invaluable. She knew what I needed and with only my signature and credentials ran with it. I experienced no downtime in being able to collect for my services. Her ability to fight for payment of claims and to advocate really improved my bottom line.

My office staff loves her, and she has helped me by educating me on what is needed to keep my office happy, healthy and productive. The smooth running of a practice is not always a "given". It is because of her insight and dedication that I have been successful. She has been my go to person in need. She and her team have guided me through the maze of EMR's, MFC's, telephone companies, decorators, insurance, etc.

I appreciate the professionalism and work ethics of her team, and I would not be where I am today without it.

Thank you Mye Med.

I am a very grateful and satisfied client.
